

Downloading and Registering with SZapp:

1. Download app called SZapp and open the app
2. Allow notifications
3. Choose 'Europe', type in Christ Church C of E Primary School (if you have an Android phone it may ask you at this point for a passcode – **7257**; for I-phones this is step 7)
4. Register with the email address that school have on record for your child (ren)
5. Create a password that includes both lower and upper case letters and at least one character
6. Confirm email within your email portal
7. Return to SZapp and log in with passcode **7257**
8. Click Save
9. You should now be into the app which looks like the image adjacent

Using SZapp:

Notifications from the school – these will pop on your mobile phone/ tablet and also appear at the top of the 'Home' screen. The trail of notifications can be seen under the 'Feed' screen

Contacting the school – the first 3 tiles enable you to quickly contact the school via phone, email or fill in a sickness form (please note this is for sickness on the day, it is not an absence request form)

News and Calendar – these list the terms events and celebrate what we have been doing. We will be moving to an e-Newsletter through the App – this is coming shortly. Use the tags at the top of the calendar to reduce to just 'whole school' and the year groups/ events you are interested in. The calendar can be synced to your personal calendar.

Submit content – if you are attending a school trip / sporting event and would like to send photos to the school potentially for the newsletter, these can be sent here

School documents/ policies – these tiles show the key school policies and link to the school website for further information

School lunches – these tiles show the current AiP lunch menu and a link to the ParentPay portal for paying for lunches

Yr Group pages – links to current terms curriculum newsletter, spellings and other key year group information

PTA – current information on events and fundraising

After School Club – link to Shine booking system

Recent letters – most recent letters sent out

Tiles on SZapp are adaptable - if there is a new tile, we will colour it yellow for a period of 2 weeks so that it is obvious it is new!
